REPORT ON REVIEW OF INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS TO THE BOARD OF DIRECTORS OF BANK OF BAHRAIN AND KUWAIT B.S.C.

Introduction

We have reviewed the accompanying interim condensed consolidated financial statements of Bank of Bahrain and Kuwait B.S.C. ("BBK B.S.C." or "the Bank") and its subsidiaries (collectively, "the Group") as at 30 September 2022, comprising of the interim consolidated statement of financial position as at 30 September 2022 and the related interim consolidated statements of profit or loss, other comprehensive income for the three month and nine month periods then ended, and the interim consolidated statements of changes in equity and cash flows for the nine month period then ended and explanatory notes. The Board of Directors of the Bank is responsible for the preparation and presentation of these interim condensed consolidated financial statements in accordance with International Accounting Standard 34 Interim Financial Reporting ("IAS 34"). Our responsibility is to express a conclusion on these interim condensed consolidated financial statements based on our review.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently, does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial statements are not prepared, in all material respects, in accordance with IAS 34.

26 October 2022
Manama, Kingdom of Bahrain

Bank of Bahrain and Kuwait B.S.C.

NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

30 September 2022 (Reviewed)

1 ACTIVITIES

Bank of Bahrain and Kuwait B.S.C. ("BBK" or "the Bank"), a public shareholding company, was incorporated in the Kingdom of Bahrain by an Amiri Decree in March 1971 and registered with the Ministry of Industry and Commerce ("MOIC") under Commercial Registration ("CR") number 1234 dated 16 March 1971. The Bank operates in the Kingdom of Bahrain under a conventional retail banking license of Volume 1 issued by the Central Bank of Bahrain ("CBB") and its shares are listed at Bahrain Bourse.

The Bank is engaged in commercial banking activities through its branches in the Kingdom of Bahrain, State of Kuwait and Republic of India. It also engages in credit card operations and business process outsourcing services through its subsidiaries. The Bank's registered office is at 43 Government Avenue, P.O. Box 597, Manama, Kingdom of Bahrain.

These interim condensed consolidated financial statements for the nine-month period ended 30 September 2022 were authorised for issue in accordance with a resolution of the Board of Directors on 26 October 2022.

2 BASIS OF PREPARATION

2.1 Statement of compliance

The interim condensed consolidated financial statements of the Bank and its subsidiaries (together, "the Group") are prepared in accordance with International Accounting Standard IAS 34, Interim Financial Reporting ("IAS 34"). The consolidated financial statements for the year ended 31 December 2021 were prepared in accordance with International Financial Reporting Standards ("IFRS") as modified by CBB, as the comparative information included in those consolidated financial statements were reported in accordance with IFRS as modified by CBB. The transition from "IFRS as modified by CBB" to IAS 34 and IFRS as issued by the International Accounting Standards Board ("IASB") has not resulted in any changes to the previously reported numbers in the consolidated statement of financial position as of 1 January 2020, 31 December 2020 and 2021, and the consolidated statement of profit or loss for the year ended 31 December 2021.

These interim condensed consolidated financial statements do not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the Group's annual consolidated financial statements as at and for the year ended 31 December 2021. In addition, results for the nine-month period ended 30 September 2022 are not necessarily indicative of the results that may be expected for the financial year ending on 31 December 2022. Certain corresponding figures have been reclassified in order to conform to the presentation of the interim condensed consolidated financial statements for the current period. Such reclassifications did not affect previously reported net profit, total assets, total liabilities and total equity of the Group.

2.2 Basis of consolidation

These interim condensed consolidated financial statements incorporate the interim financial statements of the Bank and its subsidiaries. All intra-group transactions and balances including unrealised gains and losses on transactions between the Group companies have been eliminated on consolidation.

2.3 New standards, interpretations and amendments adopted by the Group

The accounting policies adopted in the preparation of the interim condensed consolidated financial statements are consistent with those followed in the preparation of the Group's annual consolidated financial statements for the year ended 31 December 2021, except as disclosed in note 2.1 and the adoption of new standards or amendments to existing standards that have become applicable effective from 1 January 2022. The Group has not early adopted any standard, interpretation or amendment that has been issued but is not yet effective.

Several amendments and interpretations apply for the first time in 2022, but do not have any impact on the interim condensed consolidated financial statements of the Group.

2.3.1 Onerous Contracts – Costs of Fulfilling a Contract – Amendments to IAS 37

An onerous contract is a contract under which the unavoidable costs (i.e., the costs that the Group cannot avoid because it has the contract) of meeting the obligations under the contract exceed the economic benefits expected to be received under it.

NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

30 September 2022 (Reviewed)

2 BASIS OF PREPARATION (continued)

2.3 New standards, interpretations and amendments adopted by the Group (continued)

2.3.1 Onerous Contracts – Costs of Fulfilling a Contract – Amendments to IAS 37 (continued)

The amendments specify that when assessing whether a contract is onerous or loss-making, an entity needs to include costs that relate directly to a contract to provide goods or services include both incremental costs (e.g., the costs of direct labour and materials) and an allocation of costs directly related to contract activities (e.g., depreciation of equipment used to fulfil the contract as well as costs of contract management and supervision). General and administrative costs do not relate directly to a contract and are excluded unless they are explicitly chargeable to the counterparty under the contract.

The amendments are effective for annual reporting periods beginning on or after 1 January 2022. The amendments did not have any impact on the interim condensed consolidated financial statements of the Group.

2.3.2 Reference to the Conceptual Framework – Amendments to IFRS 3

In May 2020, the IASB issued Amendments to IFRS 3 Business Combinations - Reference to the Conceptual Framework. The amendments are intended to replace a reference to the Framework for the Preparation and Presentation of Financial Statements, issued in 1989, with a reference to the Conceptual Framework for Financial Reporting issued in March 2018 without significantly changing its requirements.

The Board also added an exception to the recognition principle of IFRS 3 to avoid the issue of potential 'day 2' gains or losses arising for liabilities and contingent liabilities that would be within the scope of IAS 37 or IFRIC 21 Levies, if incurred separately.

At the same time, the Board decided to clarify existing guidance in IFRS 3 for contingent assets that would not be affected by replacing the reference to the Framework for the Preparation and Presentation of Financial Statements.

The amendments are effective for annual reporting periods beginning on or after 1 January 2022. The amendments did not have any impact on the interim condensed consolidated financial statements of the Group.

2.3.3 Property, Plant and Equipment: Proceeds before Intended Use – Amendments to IAS 16

In May 2020, the IASB issued Property, Plant and Equipment — Proceeds before Intended Use, which prohibits entities deducting from the cost of an item of property, plant and equipment, any proceeds from selling items produced while bringing that asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Instead, an entity recognises the proceeds from selling such items, and the costs of producing those items, in profit or loss.

The amendment is effective for annual reporting periods beginning on or after 1 January 2022 and was applied retrospectively to items of property, plant and equipment made available for use on or after the beginning of the earliest period presented when the entity first applies the amendment.

The amendments are effective for annual reporting periods beginning on or after 1 January 2022. The amendments did not have any impact on the interim condensed consolidated financial statements of the Group.

2.3.4 IFRS 9 Financial Instruments - Fees in the '10 per cent' test for derecognition of liabilities

As part of its 2018-2020 annual improvements to IFRS standards process the IASB issued amendment to IFRS 9. The amendment clarifies the fees that an entity includes when assessing whether the terms of a new or modified financial liability are substantially different from the terms of the original financial liability. These fees include only those paid or received by the borrower and the lender, including fees paid or received by either the borrower or lender on the other's behalf. An entity applies the amendment to financial liabilities that are modified or exchanged on or after the beginning of the annual reporting period in which the entity first applies the amendment.

NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

30 September 2022 (Reviewed)

2 BASIS OF PREPARATION (continued)

2.3 New standards, interpretations and amendments adopted by the Group (continued)

2.3.4 IFRS 9 Financial Instruments - Fees in the '10 per cent' test for derecognition of liabilities (continued)

The amendment is effective for annual reporting periods beginning on or after 1 January 2022 with earlier adoption permitted. The Group has applied the amendments to financial liabilities that are modified or exchanged on or after the beginning of the annual reporting period in which the amendment is applied.

2.4 New standards, interpretations and amendments issued but not yet effective

2.4.1 IAS 41 Agriculture – Taxation in fair value measurements

As part of its 2018-2020 annual improvements to IFRS standards process, the IASB issued amendment to IAS 41 Agriculture. The amendment removes the requirement in paragraph 22 of IAS 41 that entities exclude cash flows for taxation when measuring the fair value of assets within the scope of IAS 41.

The amendments are effective for annual reporting periods beginning on or after 1 January 2023 and must be applied retrospectively. The amendments are not expected to have an impact on the Group.

2.4.2 IFRS 17 Insurance Contracts

In May 2017, the IASB issued IFRS 17 Insurance Contracts (IFRS 17), a comprehensive new accounting standard for insurance contracts covering recognition and measurement, presentation and disclosure. Once effective, IFRS 17 will replace IFRS 4 Insurance Contracts (IFRS 4) that was issued in 2005. IFRS 17 applies to all types of insurance contracts (i.e., life, non-life, direct insurance and re-insurance), regardless of the type of entities that issue them, as well as to certain guarantees and financial instruments with discretionary participation features. A few scope exceptions will apply. The overall objective of IFRS 17 is to provide an accounting model for insurance contracts that is more useful and consistent for insurers. In contrast to the requirements in IFRS 4, which are largely based on grandfathering previous local accounting policies, IFRS 17 provides a comprehensive model for insurance contracts, covering all relevant accounting aspects. The core of IFRS 17 is the general model, supplemented by:

- A specific adaptation for contracts with direct participation features (the variable fee approach); and
- A simplified approach (the premium allocation approach) mainly for short-duration contracts.

IFRS 17 is effective for reporting periods beginning on or after 1 January 2023, with comparative figures required. Early application is permitted, provided the entity also applies IFRS 9 and IFRS 15 on or before the date it first applies IFRS 17. This standard is not applicable to the Group.

2.5 Impact of COVID-19, including use of estimates and judgments

COVID-19 pandemic spread across various geographies globally, causing disruption to business and economic activities. The fiscal and monetary authorities, both domestic and international, have announced various support measures across the globe to counter possible adverse implications. As a regulatory response to the outbreak of the coronavirus pandemic, the CBB issued various relaxation measures from time-to-time to contain the financial repercussions of COVID-19, including instalment deferrals.

In preparing the interim condensed consolidated financial statements, judgments were made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were impacted by the potential impacts of the economic volatility in determination of the reported amounts of the Group's financial and non-financial assets and these are considered to represent management's best assessment based on available or observable information. The ECL methodology has largely remained unchanged from 31 December 2021, which included the changes to factor into account COVID-19 impacts.

When determining whether the risk of default on a financial instrument has increased significantly since initial recognition arising from CBB mandated deferrals, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Group's historical experience and expert credit assessment and including forward-looking information.

2 BASIS OF PREPARATION (continued)

2.5 Impact of COVID-19, including use of estimates and judgments (continued)

In determining whether credit risk has increased significantly since initial recognition, the Group uses its internal credit risk grading system, external risk ratings, delinquency status of accounts, expert credit judgment and, where possible, relevant historical experience. The Group may also determine that an exposure has undergone a Significant Increase in Credit Risk ("SICR") based on particular qualitative indicators that it considers are indicative of such, and whose effect may not otherwise be fully reflected in its quantitative analysis on a timely basis.

The Group continues to closely monitor the situation to ensure operational resilience and continuity of its operations.

3 SEGMENTAL INFORMATION

For management purposes, the Group is organised into four major business segments:

Retail banking	Principally handling individual customers' deposits and providing consumer finance type loans, overdrafts, credit facilities and funds transfer facilities, credit cards and foreign exchange.
Corporate banking	Principally handling loans and other credit facilities, deposit and current accounts for corporate and institutional customers in Bahrain.
International banking	Principally handling loans and other credit facilities, deposit and current accounts for international corporate and institutional customers. This also covers the operations of the overseas units.
Investment and treasury activities	Principally providing money market, trading and treasury services as well as the management of the Group's funding operations. Investment activities involve handling investments in local and international markets, investment advisory services and funds management.
Other activities	Other activities include business process outsourcing services.

These segments are the basis on which the Group reports its information to the chief operating decision maker. Transactions between segments are generally recorded at estimated market rates on an arm's length basis. Interest is charged / credited to business segments based on a transfer pricing rate which approximates the marginal cost of funds on a matched funding basis.

15 FINANCIAL INSTRUMENTS

The Group uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level 1: quoted (unadjusted) prices in active markets for identical assets or liabilities;

Level 2: other techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly; and

Level 3: techniques which use inputs which have a significant effect on the recorded fair value that are not based on observable market data.

The significant inputs for valuation of equities classified under Level 3 are annual growth rate of cash flows and discount rates and for funds it is the illiquidity discount. Lower growth rate and higher discount rate, illiquidity discount will result in a lower fair value. The impact on the consolidated statement of financial position or the consolidated statement of shareholders' equity would be immaterial if the relevant risk variables used to fair value the unquoted securities were altered by five per cent. There were no material changes in the valuation techniques used for the purpose of measuring fair value of investment securities as compared to the previous year.

The following tables show an analysis of financial instruments recorded at fair value by level of the fair value hierarchy.

	<i>Level 1</i>	<i>Level 2</i>	<i>Level 3</i>	<i>Total</i>

All figures in BD millions

15 FINANCIAL INSTRUMENTS (continued)**Transfers between level 1, level 2 and level 3**

During the reporting period / year ended 30 September 2022 and 31 December 2021, there were no transfers into and out of Level 3 fair value measurements. Further, there was no significant movement within equity instruments classified under Level 3.

The tables below sets out the estimated carrying values and fair values of those on and off statement of financial position financial instruments carried at amortised cost where fair values are different from the carrying amounts shown in the consolidated financial statements:

	30 September 2022 (Reviewed)			31 December 2021 (Audited)		
	Carrying value	Fair value	Difference	Carrying value	Fair value	Difference
Financial assets						
Investment securities	240.4	237.2	3.2	228.4	236.3	(7.9)
Financial liabilities						
Term borrowings	263.9	259.5	(4.4)	245.1	253.1	8.0

The above financial assets and liabilities are at Level 1 fair value. The fair value of financial assets and financial liabilities approximate their carrying values, other than those disclosed in the table above.

16 NET STABLE FUNDING RATIO (NSFR)

The NSFR ratio is calculated in accordance with the Liquidity Risk Management Module guidelines, issued by the CBB. The minimum NSFR ratio limit as per CBB is 100%. The Group's consolidated NSFR ratio as of 30 September 2022 was 131.2% (31 December 2021: 136.9%).

The main drivers behind our robust Available Stable Funding (ASF) are the solid capital base, sizeable Retail and Small business deposits portfolio, large portfolio of non-financial institutions deposits (related to Government and Corporate deposits), as well as medium term funding from Repo and Euro Medium Term Notes (EMTN) and Term Debt. The capital base formed 21.7% (31 December 2021: 21.5%) of our ASF, while the retail and small business deposits formed 46.5% (31 December 2021: 46.7%) of the ASF (after applying the relevant weights).

For the Required Stable Funding (RSF), the primary reason for the relatively low RSF, in comparison to the ASF, is related to the sizeable portfolio of BBK's High Quality Liquidity Assets (HQLAs) which accounts for 22.1% (31 December 2021: 21.4%) of total RSF (before applying the relevant weights).

In comparison to 31 December 2021, the NSFR ratio decreased from 136.9% to 131.2% primarily due to increase in RSF due to growth of the loans portfolio and increase in NSFR derivative assets due to positive valuations.
